

Moticam 4000X HDMI & USB

ULTRA HD CAMERA + WIFI

A unique solution to turn your conventional microscope into a digital microscope and Wi-Fi station, enabled to share your images with up to 6 devices at the same time. Simply logon with your tablet or smartphone and get ready to capture, edit and store your microscope images with the free App MotiConnect.

It does not require a computer for standard operation, as it comes with an on-board software that will allow you to use it by simply connecting it to a screen through its HDMI port, and with a mouse connected to the USB port of the camera.

Or with the USB, connect directly to a computer using Motic Images plus application software
